

May 29, 2008

To Whom It May Concern,

I have known Jonathan Martin for 9 years first as a parent, then as a Parent Association officer and now as Vice Chair on the board of trustees at Saklan Valley School, in Moraga California.

Over the years I have worked on many projects that were supported by Jonathan from the Annual School Auction, Family Fun Night, International Day, the CAIS re-accreditation process, and reviewing the Strategic Plan.

Jonathan was involved in the purchase of our school site in 2003, after many years of renting. He was also involved in the renovation of the playgrounds, science lab, a new middle school area including a new portable, decking and covering creating a real space for our middle school students.

Communication has evolved at the school with the addition of a website with weekly and monthly publications. Under Jonathan's tenure the different classes have increased their class trips, foreign language has expanded to include Mandarin in the lower grades, the science education has been enhanced, ERB testing scores have increased and many of our 8th grade graduates go on to be accepted to their first choice high schools.

Over the years it has been a pleasure to support Jonathan Martin and to watch the school grow and flourish. I wish him the very best in what ever endeavors come his way.

Sincerely,

Annie Barendregt
